Established Reputation Diamond Rings

In the purchase of Diamonds, Watches, Jewelry, etc., you must depend upon the merchant for quality. As Shakespeare remarks in the "Merchant of Venice," "All is not gold that glitters." Neither is all so-called cut glass the real article. Neither do all watches answer the purpose for which they are intended, nor all Diamonds of equal value. In making your purchases of "Everitt" you can depend absolutely on learning the truth about these things. Our reputation is the outgrowth of 35 years of honorable business in Albuquerque. You will find our store replete with the very best goods usually found at exclusive jewelers and as our trade is unusually large at this season of the year, so in proportion you will find our prices unusually reasonable.

Remember the quality of an article remains with you long after the price is forgotten.

As an inducement to morning shoppers we shall, on request, return 5 per cent of the cash on all purchases made before 1 o'clock each day until Christmas.

SKATING POPULAR PASTIME WITH THE YOUNGSTERS

Ponds and Lakes Near Albuquerque Frozen Over Solidly; Many People Enjoyed Winter Sport Sunday.

Skates long unused have been dragged forth from cellar and attic, cleaned and sharpened, and the owners have for a number of days past been enjoying excellent skating on the numerous ponds and lakes in the country around Albuquerque. With the ice frozen solid yesterday many adults availed themselves of the opportunity to go on a "skate." A number of skating parties spent the day at the lakes north of the Indian school. Provided the ice continues good for skating, the pupils of the local schools will spend much of their time during the Christmas holidays enjoying the fascinating pastime of skidding over the frozen water.

MISTLETOE GROWS PROFUSELY NEAR ALAMEDA GROVES

Christmas Decoration May Be Secured in Abundance Nine Miles North of Albuquerque by Nature Lovers.

Mistletoe, now in demand as a holiday ornamentation, grows in abundance in the cottonwood groves near Alameda, some nine miles north of Albuquerque, and may be secured in considerable quantities by those who wish to make a trip to the wilds of the jungle and secure it. The mistletoe is said to be of good quality, although probably inferior to that shipped into Albuquerque from outside points. Most of the shipped-in variety comes from the Organ mountains near Las Cruces.
